

# 2019 Pediatric Orthopedics Update

Managing the Full Spectrum of Pediatric Musculoskeletal Conditions

**Saturday, May 4<sup>th</sup>, 2019 // White Plains, NY // 7:30am - 2:30pm**

This is an opportunity to learn about a vast array of orthopedic conditions that affect the pediatric population. Pediatric experts from Columbia University's Department of Orthopedic Surgery and NewYork-Presbyterian Morgan Stanley Children's Hospital will share their knowledge and experience through presentations, question and answer sessions, as well as open round table discussions.

At the conclusion of this activity, participants will be better able to:

- Discuss the current literature and latest information on Pediatric Orthopedic conditions
- Recognize when to worry and when to refer a patient to a Pediatric Orthopedic Specialist
- Manage certain Pediatric Orthopedic conditions in the primary care setting

*This program is designed for healthcare providers treating the Pediatric population. Pediatricians, Family Practitioners, Orthopedic Surgeons, Physiatrists, Nurse practitioners, Physician Assistants, Physical Therapists, and Athletic Trainers are strongly encouraged to attend.*
